DIMENSIONS FOR MICROWAVE WD904SS

All electrical connections must be correctly earthed and conform to local codes.

The above drawing is a pictorial representation only. Its purpose is to assist installers with requirements for installation

Flush Fit

The lower shelf is set back 20mm from the front of the outer cabinet cutout for flush fit only. (Flush with inner cabinet facing).

The two side brackets are mounted to the top left and right side panels.

The microwave mounting plate is placed into the base of the cabinet in the centre.

Be sure to use all the mounting screws provided when securing the plate assembly to the base.

MDF Sheet 31x510x3mm thick.

Cut out of min 500 x 45mm must be provided for ventilation. Inadequate ventilation may cause microwave faults and condensation.

Technical Support Should any further information be required please contact TECHNIKA.

PLEASE NOTE INCORRECT INSTALLATION WILL VOID ALL WARRANTIES
